HOW TO MEASURE & FIT
Como Medirse y Verificar el Ajuste

Measure your feet / Medite el pie

Place a sheet of paper against a wall on a hard-surfaced floor. Place your heel against the wall and outline your feet one at a time. Measure the distance from heel to toe in centimeters. Use the longest measurement to match your best fit on the size chart.

Coloca una hoja de papel contra la pared en el piso. Apoya el talon contra la pared y dibuja el contorno de tu pie. Mide del talon al dedo mas largo en centimetros. Usa la medida mayor para encontrar tu talle en la tabla.

The table considers the original liner size, **without any additional footbed**.
La tabla considera el liner original, **sin plantilla adicional**.

Check for a proper fit / Verificar el ajuste

When trying on the skates the toes **should NOT be pressed** against the front of the skate and should lay flat.

Al probar los patines, los dedos **NO deben presionar** contra la punta y deben quedar planos.

Toes can **touch slightly** the front of the skates, without pressure point.

Los dedos pueden **tocar levemente** la punta, sin punto de presion.

When between sizes, size up. / Si estas entre dos talles, elegi el mayor.
